Experience

MERN Stack (Typescript) | Flutter @ Bindr

Nov 2021 - April 2023 // London, UK

- Contributed to the development of the product's user interface using ReactJS/TypeScript, resulting in improved user experience and seamless integration with NodeJS/TypeScript backend.
- Assumed a pivotal role in integrating the stream chat and chat user interface.
- Designed and implemented the onboarding flow user interface and its integration with the backend for mobile devices using Flutter.
- Currently serving as a versatile Full Stack and Mobile Developer, leveraging expertise in ReactJS/TS, NodeJS/TS, and Flutter to enhance product UI and seamlessly integrate with the backend.

Backend Developer @ Skupreme

June 2021 - Present // Florida, US

- Successfully integrated APIs of Reverb, Google, Bigcommerce, and Facebook with serverless architecture
- Designed and implemented data analytics solutions using MongoDB and AWS Lambda
- Developed and maintained API documentation using Swagger
- Demonstrated expertise in using AWS services, including Lambda and MongoDB, to deliver reliable and efficient solutions
- Contributed to the development of complex systems and helped to ensure project success through close collaboration with the rest of the development team.

Backend Developer @ AlphaSquad

Dec 2020 - July 2021 // Islamabad, PK

- Built robust and scalable GraphQL APIs using AWS Amplify and Apollo GraphQL, optimizing performance and ensuring seamless serverless integration.
- Managed the backend development for three different projects for the company's clients, ensuring timely delivery and optimal functionality.
- Created and maintained an effective ETL pipeline utilizing AWS Glue, AWS Kinesis Firehose, S3, and PySpark, transforming raw data into valuable insights and enabling data-driven decision making.

Backend Developer @ MTBC

Mar 2020 - Oct 2020 // Rawalpindi, PK

- Developed components in ReactJS for MTBC Applications.
- Created multiple Backend API's in NodeJS and Flask based on task assigned.
- Integrated BrainTree payment gateway API in NodeJS and linked with ReactJS.

Skills

Programming Languages

JavaScript (ES6), TypeScript, HTML, CSS/Sass, GraphQL, Python, Dart, Graphql, SQL

Libraries & Frameworks

ReactJS, NodeJS, ExpressJS, Apollo GraphQL, NextJS

Tools & Platforms

Git, Webpack, Netlify, Heroku, Docker, Firebase, AWS. GCP

Databases

MongoDB, MySQL, DynamoDB

Education

COMSATS University

2016 = 2020 // Islamabad, PK

Bachelor of Computer Science
